“ Back in 1986 I ventured out and started my own CPA firm. I had been in public accounting for 7 years and was offered the opportunity to have my first bank client that I could call my own. I met with the top management of the Bank of Blountsville, Frank Carter, Jack Cornelius and of course Dicey Childers. Dicey was the one that knew everything going on at the bank and her opinion was highly valued. Dicey and I hit it off and spent a large portion of our time talking about the Lord and His desire that we do all things in excellence for His glory. Dicey was the major influence that secured the bank for me as a client. This led to the obtaining of many more bank clients over the previous 35 years with continued support and referrals from Dicey. She would even call other banks and tell them that they needed to change their auditor and tax firm to me. I am humbled by her generous heart and love for all people. I will forever be grateful to her.

When she opened up *The Alabaster Box*, she had a desire for it to be profitable, however, her generous heart would often get in the way. She loved people so much that she often sold items at cost or even less to spread the love of Christ throughout her community. If a few words could describe her they would be "joy of and in the Lord", "generous", "compassionate", "steadfast faithfulness".

Heaven is brighter with her presence and our memories are enhanced with her legacy.

Sister Dicey and brother Jake was one of the reasons that we went to church at Blountsville Church of God. They shared Tommy and my Anniversary date..November 22nd.
